iFace

Perfect Connection.

Strict quality testing performed.

iFace Cable

Lightning to USB-A / USB-C

MFi* Certified.

Strict quality testing performed through Apple MFi certification to ensure your devices are charged safely at the fastest possible speed.

Fast Charge (USB-C)

Lightning to USB-C cable supports safe high-speed charging and fast data transfer.

*MFI : Mafe for iPhone

Super Durable & Break Resistant.

Reinforced stress points with a 30,000+ bend lifespan make Power Line much more durable than other similar cables available on the market.
Flexible and tangle-free, designed to meet all kinds of daily connection needs for long-term use.

30,000 times
Bending Test Pass

Suitable for any location.

The connecting part is designed with an anti-slip cord for easier plugging and unplugging of the lightning cable.

Connect your device using iFace Cable
and charge/sync it by inserting the USB connector
into your power adapter or computer.

1.2M Cable makes charging more convenient, offering a lot of mobility to use the device even when attached.

Perfect Length at 1.2M

With the 1.2M length, you will have access to your devices even during the charging process. A great fit for use in your bedroom, office or from the back seat of your car.

Velcro strap is simple to use, self-fastening and will help you organize and store the cable quickly and safely.
